ELECTRICAL CONTROL PANELS

We offer our clients an optimum quality range of **Custom Built Electrical Control Panels** which is manufactured using the best grade electrical components, raw material and high-end technology in compliance with the set industry standards. Owing to its sturdy structure and negligible maintenance, this panel is widely demanded among our clients. Our products are highly appreciated among customers for its durability and easy maintenance.

We use only Genuine and best Electricals Switchgear & Electricals accessories (**MCCBs , Indicators , WLCs , ACBs , Wires , Switches , Energy meters**) Brands such as ,

- Schneider
- Siemens.
- L&T
- BCH.
- ABB.
- Teknik
- Polycab ,

Applications : Pharmaceuticals industries , Hospitals , Engineering Industries.

Capacity : upto 20 -1200 AMP.

Panel range:

- Electrical panel for CHILLER (Water cooled) .
- Electrical panel for HVAC .
- Electrical panel for HOT Water circulating system.
- Electrical panel for heavy heater loads .

MOC : MS Powder coated finish.

SS 304 (for pharma application)
